

Dear Sirs:

This letter is concerning the proposal of expanding LPFM stations. It is my understanding that the proposal would allow the LPFM stations to take priority over current FM translator services.

My concern is that the ONLY radio station my family listens to (AIR 1 Radio 90.1FM), is broadcast locally on one of their many translators that are in danger of being usurped by an LPFM station. This is an extremely worthwhile radio station that supports wholesome values and has a positive impact not only in my household and community, but in hundreds of thousands of households across America.

It would be tragic for so many to lose this important station that supports family values and serves our community so well. I believe that it is in the best public interest to make sure that stations like AIR1 remain on the air.

Sincerely,  
Sarah Redmill  
Redding, CA
